PROFESSIONAL SUMMARY

- Frontend Developer with 2+ years of experience building responsive, scalable web interfaces using **React.js**, **Next.js**, and **Tailwind CSS**.
- Experienced with **Next.js** for building SEO-friendly pages and dynamic routes, with basic understanding of backend API integration.
- Skilled in state management using **Redux Toolkit**, version control with **Git & GitHub**, and build tooling with **Vite**, ensuring collaborative and maintainable codebases.
- Recently expanded skillset with **AWS** and **DevOps** tools including **Docker**, **GitLab**, and **Jenkins** (basic), supporting **CI/CD** integration in front-end workflows
- Knowledgeable with hands-on working experience with databases like **MongoDB** and **SQL**, supporting data-driven features in web applications.
- Experienced with design tools like **Figma**, **Framer**, and **AI-assisted** design tools such as **Lovable**, enhancing design-to-development workflows and rapid prototyping.
- Familiar with **Data Structure & Algorithm** concepts to improve problem-solving and coding logic.
- Familiar with server-side technologies like **Node.js**, **Express.js**, and **Next.js**, with a good understanding of how to integrate front-end applications with back-end services

PROFESSIONAL EXPERIENCE

Software Engineer | Wipro | Dec 2021 – Jul 2024

- Contributed to Oracle Applications development for enterprise data systems and maintenance tasks using the **TOAD**, primarily focused on database queries and analysis.
- Worked with **Oracle Forms** and **Reports** to understand and customize data entry screens and generate business reports for enterprise applications.
- Gained strong hands-on experience with **SQL** and worked closely with enterprise data systems.
- Recognizing limited growth opportunities in the Oracle Apps stream, proactively pursued frontend development outside of core responsibilities. Designed UI using **Figma** and implemented using modern web technologies including **HTML**, **CSS**, **JavaScript**, and **React** Improved **UI responsiveness by 30%**.
- Built responsive UI components leveraging **Tailwind CSS** and **Material UI**. Developed **TypeScript**-based **React** applications to ensure scalability and type safety.
- Developed frontend components using **React** and **Tailwind CSS**, while exploring backend concepts in **Node.js**, **Express.js**, and **MongoDB** to understand end-to-end integration.

EDUCATION

- **B.E.** in Computer Science and Engineering, KLE D.R.M.S.S.CET (2018–2021), Belgaum.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, Sass, JSON, AJAX, jQuery, Redux Toolkit | **Backend (Familiar):** Node.js, Express.js | **Database:** MongoDB, SQL | **DevOps & Tools:** Git, GitHub, GitLab, Docker, Jenkins (basic), Vite, Webpack, npm, AWS, Linux. | **UI/UX:** Figma, Framer, Lovable | **Testing:** Jest | **Others:** Jira, Oracle Forms & Reports.

PROJECTS

1. Personal Portfolio:

- Designed and developed a fully responsive personal portfolio website using Next.js and Tailwind CSS to showcase skills, projects, and experience.
- Implemented smooth navigation, optimized images, and SEO-friendly structure for better user experience and performance.
- Integrated GitHub, Figma, and project showcases (Netflix clone, Grocery app) to provide a complete view of frontend capabilities.
- **Technical Stack:** HTML5, CSS3, JavaScript (ES6+), Next.js, React.js, Tailwind CSS, Vercel.

2. Grocery App:

- Built a responsive grocery shopping UI using ReactJS, HTML, CSS, and JavaScript, closely mimicking Grocery product display and layout.
- Designed and implemented an interactive **shopping cart system** with real-time item updates and accurate total price calculations which improved user experience and reduced product search time by 40%.
- Applied **state management techniques** in React (using `useState` and `useEffect`) to maintain smooth and reactive UI updates.
- Built & Integrated backend APIs using Node.js and Express.js
- **Technical Stack:** HTML5, CSS3, JavaScript (ES6+), ReactJS, REST APIs, Responsive Web Design.

3. Additional Projects:

- Weather App, Quiz App, Portfolio Website, and more available on GitHub.
- Currently expanding backend development skills with **Node.js**, **Express.js**, and **MongoDB** by building small full-stack projects

CERTIFICATION

- **SQL & PostgreSQL** by Udemy.
- Completed **Power BI Desktop** Certification.
- Achieved beginner to advanced certification in **HTML** and **CSS** through the **MySkill-Z** program by **Wipro**.
- Completed “**DevOps: Development to Deployment and More with Hands-On**” from **Udemy**.
